

NORTHANTS BASKETBALL CLUB

PRESS RELEASE

Northants Basketball Club launches Summer Coaching Programme

Following the relaxation of Covid regulations, the Northants Basketball Club has announced an extensive Summer Coaching Programme. The programme which started last Monday will run for twelve weeks and will involve all sections of the Club a total of well over 200 boys and girls.

Unlike the Easter Camps, the Summer Programme will be held indoors and will comply with Basketball England screening and sanitising regulations. The coaching groups will be based on school years and in addition there will be sessions for boys and girls under the age of ten.

Club Administrator, Karen Goodrich explained that the club had been contacted by a considerable number of new players and these players would be accommodated within the existing groups. She commented, “We were rather concerned that some players might not return after the long lay-off, but this doesn’t seem to have happened. Obviously, we are delighted to be active again especially indoors. Our coaches are looking forward to working with the players, but it will take a great deal of hard work to get the players ‘up to speed’ after such a long break.

As yet the club doesn’t know what competitive structure will be put in place for next season but the intention is to run eleven teams including teams in the Youth Basketball League as well as the National League.

Despite the large numbers already involved in the club new players are always welcome and anyone interested should contact the club by email at northantsbasketballclub@hotmail.co.uk
